# Maseru Local Uninterruptible Power Supply BESS

## Overview

---

What is a battery energy storage system (BESS) & an uninterruptible power supply (UPS)?

Figure 1: A simplified project single line showing both a battery energy storage system (BESS) and an uninterruptible power supply (UPS). The UPS only feeds critical loads, never losing power.

What is an uninterruptible power supply (UPS) system?

Courtesy: Affiliated Engineers Inc. Uninterruptible power supply (UPS) systems have been a familiar presence for years, known for their ability to enhance power quality and offer continuous power for critical loads. These systems typically supply power for a few minutes while the generator starts up.

Does a Bess need a separate ups?

While the BESS can start up quickly, it is not instant and there will be a brief voltage supply disruption during startup. As a precaution, the system will require a separate UPS to power sensitive or critical components, potentially including the controller for the BESS.

Do kilowatt-hour limits apply if a Bess is a “dedicated use” building?

If the BESS is in a “dedicated use” building compliant with IFC 1207.7.1, then the kilowatt-hour limits outlined in the table do not apply. This exception is beneficial, especially considering that 600 kWh of energy capacity is approximately equal to a small portable diesel generator’s belly tank capacity.

Does a fire barrier need a standby power source?

If accessory power is needed for heating, ventilation and air conditioning (HVAC), ensure it comes from a source recognized as “legally required standby” under NEC 701. IFC 1207.7.4 stipulates a two-hour fire barrier separation requirement if the BESS is installed inside a building that is not

dedicated for its use.

## Maseru Local Uninterruptible Power Supply BESS

### BESS Solutions for Reliable Power in Iraq Uninterruptible Supply ...

BESS technology addresses Iraq's urgent need for reliable electricity while supporting renewable energy adoption. With decreasing costs (14% price drop since 2022) and improving ...
