# Moldova wind and solar power system

## Overview

---

Moldova's first large-scale renewables tender allocates 165 MW of wind and solar to 11 projects, boosting energy security and signaling a maturing green market. Why did Moldova launch its first wind and solar power plant?

CHISINAU, Aug 16 (Reuters) - Moldova launched its first tender for wind and solar power plants on Friday as part of a push to reduce its reliance on Russian energy. "Opening up for investors to develop renewables is yet another critical step towards ensuring greater energy security for Moldova," Energy Minister Victor Parlicov told Reuters.

How can Moldova improve the energy sector?

National regulatory framework (both primary and secondary) improved in line with Moldovan energy commitments, ensuring that national authorities are better prepared and can respond to emergency situations in the energy sector and to the needs of the most vulnerable energy users;

How much energy does Moldova use in 2023?

Official data shows Moldova increased the share of renewable energy sources in its electricity consumption to 10.5% in 2023 from 3.6% in 2021, driven by wind and solar. Officials said the total installed capacity was around 400 MW at the end of the second quarter of 2024.

Does Moldova rely on Russian energy?

With few natural energy resources, Moldova imports almost all of its energy supplies from Russia and Ukraine. Moldova's dependence on Russian energy is underscored by a more than \$6 billion debt to Russian natural gas supplier Gazprom, largely the result of unreimbursed natural gas consumption in the breakaway region of Transnistria.

Will Moldova take Ukraine into the EU by 2030?

Moldova has condemned Russia's invasion of Ukraine, and its pro-western

government hopes to take the small agricultural economy into the EU by 2030. The tender aims to construct wind power plants with a capacity of up to 105 megawatts and photovoltaic plants with a maximum capacity of 60 MW, the energy ministry said.

Will Moldova get a 15-year fixed price guarantee?

The winning investor will get a 15-year fixed price guarantee for the electricity generated. Official data shows Moldova increased the share of renewable energy sources in its electricity consumption to 10.5% in 2023 from 3.6% in 2021, driven by wind and solar.
