Overview

Who makes a solar panel aluminum frame?

Wellste Aluminum has manufactured and supplied solar panel aluminum frame for over 20 years. 30 engineers, 10 years of aluminum industry working experience can offer you the best solution for your solar panel and solar system project.

How many solar panel manufacturers are there?

Companies involved in Frame production, a key sourcing item for solar panel manufacturers. 154 Frame manufacturers are listed below.

Why are solar panel frames important?

Solar panel frames fix and seal the solar modular components in one position for easier movement and installation. It protects the battery of the solar from falling out of place thus extending the service life of the solar panels. It protects the internal solar components from mechanical and thermal tension and subsequent damages.

How long does a solar panel aluminum frame last?

Wellste solar panel aluminum frame is long-lasting, can be used for more than 30-50 years exposed outside. Wellste Aluminum has plenty of standard frame sectional size for solar panel aluminum frame, we have available mold which can save your cost and time, as like 25x25mm, 25x30mm, 30x35mm, 35x35mm, 35x40mm, 35x50mm and etc.

What is wellste solar panel aluminum frame?

Wellste solar panel aluminum frame usually comes in 6063 aluminum alloy number with anodized surface. The anodized surface increases the corrosion resistance in the outdoor environment. solar panel aluminum frame has light weight which makes it easier to transport and install. Installation does not require any welding.

How does wellste control the quality of aluminum solar panel frames?

Wellste controls the quality of aluminum solar panel frames by taking keen interest on the following features: The main raw material that Wellste uses to manufacture aluminum solar panels is aluminum. To ensure high quality, Wellste uses 6063T5 aluminum alloy which has a higher tensile strength and offers resistance to corrosion.
