

Solar Storage Container Solutions

Morocco power storage vehicle custom manufacturer

Overview

How much will EV batteries cost in Morocco?

In June this year, the Moroccan government announced that Gotion High-Tech would invest \$1.3 billion (US) to build a gigafactory for EV batteries. The initial planned production capacity is 20 GWh, with future plans to gradually increase it to 100 GWh, and the total investment is expected to reach \$6.5 billion.

Does sunwoda have a battery production base in Morocco?

Additionally, Sunwoda is also setting up a battery production base in Morocco. The number of material manufacturers investing in Morocco is even larger. In April this year, Zhongke Electric planned to invest about \$699 million (US) to implement an integrated base project for producing 100,000 tons/year of anode materials in Morocco.

Are electric cars becoming more popular in Morocco?

Today, demand for electric batteries is growing both outside and within Morocco, where Citroen plans to double its production capacity in Kenitra, in the north-west of the country, from 50,000 supermini electric cars within two years.

Which Chinese lithium battery companies are based in Morocco?

Since 2023, several Chinese lithium battery industry chain companies, including CATL, Gotion High-Tech, Sunwoda, BTR, Huayou Cobalt, CNGR Advanced Material and Tinci Materials, have collectively invested in Morocco and built factories. The battery industry chain centered around LFP is forming rapidly.

Will Morocco join the EV industry?

But Morocco now looks set to join the big league after its government announced in July that it is planning to ink a deal with several EV battery

manufacturers to construct a huge production facility in the kingdom by the end of this year.

What is the future of EV exports in Morocco?

By 2030, EV exports are expected to account for 60% of Morocco's total car exports, and the export value of investors in Morocco's power battery value chain is projected to reach 40 billion euros (approximately \$44 billion US).
