# New Delhi now has 5g communication base stations

## Overview

---

When will BSNL launch 5G services in Delhi?

BSNL plans to launch 5G services in Delhi and other cities by September 2025, following the installation of over 93,000 4G towers.

How many 5G base stations are there in India?

The ministry revealed that 4.69 lakh (469,000) 5G base stations have been deployed nationwide as of 28 February 2025, to support the growing subscriber base. Currently, 5G services are available in 99.6 per cent of districts across India, with telecom operators exceeding their mandatory rollout obligations.

Which telecom companies have rolled out 5G in India?

Leading telecom operators Reliance Jio and Bharti Airtel completed their pan-India 5G rollouts in early 2024, while Vodafone Idea (Vi) recently launched its commercial 5G services in Mumbai.

How many mobile subscribers in India have adopted 5G services?

New Delhi: Nearly 25 crore (250 million) mobile subscribers in India have adopted 5G services since the launch of next-generation networks in October 2022, according to data from the Ministry of Communications. The rapid uptake of 5G underscores the increasing demand for high-speed connectivity and expanding digital infrastructure nationwide.

How many 4G towers are there in Delhi?

Over 93,000 4G towers already installed; over 70,000 operational. State-owned telecom operator Bharat Sanchar Nigam Limited (BSNL) is expected to launch 5G services in Delhi and other select cities by the end of September, senior officials said on Friday, according to a Business Standard report.

Where BSNL has activated 5G services?

According to officials, BSNL has activated 5G services at sites in major state capitals including Jaipur, Lucknow, Chandigarh, Bhopal, Kolkata, Patna, Hyderabad, and Chennai. Most of these are newly installed 4G sites under the first phase of the 1 lakh sites deployment, the officials quoted in the report said.
