New Delhi subsidizes photovoltaic inverters

Overview

What is the capital subsidy for solar projects in Delhi?

State Capital Subsidy: Under the new Delhi Solar Policy, the Capital subsidy for all Solar projects for residential customers shall be given at the rate of Rs. 2,000/- per KW upto a maximum of Rs. 10,000/- per consumer. The subsidy will be passed through their first electricity bill post-commissioning of the RTS system.

How much subsidy is available for solar PV installation in Delhi & NCR?

A capital subsidy of ₹2,000 per kW is available for residential consumers, capped at a maximum of ₹10,000 per installation. This subsidy comes on top of the central government's capital subsidy. You can schedule a call with us to install Residential or Commercial Solar PV plants in Delhi & NCR with the latest technology.

What is Delhi's new solar subsidy scheme?

The move is aimed at accelerating the uptake of clean energy by making solar systems more affordable for residents. Under the new provision, the Delhi government will provide a maximum subsidy of ₹30,000 for a 3 kW rooftop solar system, in addition to the subsidy already offered by the Union government under the PM Surya Ghar: Muft Bijli Yojana.

Does Delhi offer a solar subsidy besides CFA?

Apart from this, under the new solar policy, the Delhi government is also offering a solar subsidy in addition to the CFA. Through the recently launched National Portal for Rooftop Solar, one can directly apply for solar subsidy online and track the entire process from application submission to transfer of funds to the respective bank account.

Is Delhi promoting residential solar adoption?

In a significant push to promote residential solar adoption, the Delhi Cabinet,

chaired by Chief Minister Rekha Gupta, has approved an additional state government subsidy of ₹10,000 per kilowatt (kW) for rooftop solar installations in the national capital.

What is Delhi solar policy 2024?

At the end of January 2024, Chief Minister Arvind Kejriwal announced Delhi Solar Policy 2024 with multiple financial incentives for residential, commercial, and industrial solar consumers. The new policy aims to achieve 4.5 GW of solar capacity by March 2027. The policy also provides multiple initiatives:
