New circuit breaker in China in Hungary

LFP 12V 200Ah

Overview

Will Xinzhi's investment boost Hungary's electric vehicle industry?

The HUF 50 billion (EUR 121 million) investment of Chinese automotive company Xinzhi in Hatvan (some 60 kilometers east from Budapest) will create almost 900 new jobs, further strengthening Hungary's position in the global market of electric vehicle industry transformation, Minister of Foreign Affairs and Trade Péter Szijjártó announced on Monday.

Why is Hungary a good place to invest in electric cars?

"The electric car industry is still at an early stage of its development, so research and development really have a big role to play now, so Hungary has been able to attract not only a major new production capacity, but also a research and development capacity with a particularly high added value in the field of innovation," he said.

Will China build a new car in 2023?

Another Chinese company, BYD, the world's leading manufacturer of new energy vehicles, announced in 2023, that it would build its first European car plant in Szeged (southern Hungary) with an investment of several billion euros, capable of producing 300,000 cars per year. The first BYD car in Hungary could be complete in November 2025.

Is Xinzhi coming to Hungary?

Xinzhi coming to Hungary is just another milestone in the Chinese-Hungarian business relations. Chinese company CATL (Contemporary Amperex Technology Co., Limited) also announced in 2022, that it would build its second European battery factory in Hungary, in the Southern Economic Zone of Debrecen (eastern Hungary).

Will Xinzhi build its next plant in Hungary?

According to a statement sent to MTI, the minister announced that Xinzhi, a

market leader in the production of one of the most important basic components for electric motors, has decided to build its next plant in Hungary. Péter Szijjártó then pointed out that
