New energy storage trading in Sweden

Overview

A new partnership between SEB Nordic Energy, through its portfolio company Locus Energy, and Ingrid Capacity will enable the construction of 13 new large-scale battery energy storage systems across southern Sweden, adding an additional 196 MW of flexible capacity to the national grid. Does Sweden have a battery energy storage system?

Sweden has traditionally lagged behind continental Europe in Battery Energy Storage Systems (BESS) growth, but recent developments have propelled rapid expansion. Until 2022, only a few projects were launched, mainly supported by subsidies and specific storage needs.

How many large-scale battery storage systems are there in Sweden?

14 large-scale battery storage systems (BESS) have come online in Sweden to deploy 211 MW / 211 MWh into the region. Developer and optimiser Ingrid Capacity and energy storage owner-operator BW ESS have been working in partnership to deliver 14 large-scale BESS projects throughout Sweden's grid, situated in electricity price areas SE3 and SE4.

What is Sweden's largest energy storage investment?

Sweden's largest energy storage investment, totaling 211 MW, goes live, combining 14 sites. 14 large-scale battery storage systems (BESS) have come online in Sweden to deploy 211 MW / 211 MWh into the region.

When will Ingrid capacity build a new battery storage facility in Sweden?

As a next step, Ingrid Capacity is about to commence the construction of another 13 new battery storage facilities in Sweden by the end of 2024, with a capacity of 196MW/196MWh, further strengthening the Swedish electricity grid in the SE3 and SE4 price areas.

Is Sweden a good place to invest in battery storage?

As a result, Sweden remains an attractive market for battery storage

investment in the years ahead. Sweden's BESS market is evolving with renewable growth, market shifts, and trading strategies. Learn how battery storage can thrive in Sweden's energy future.

Why is energy storage important in Sweden?

RES Nordics CEO Matilda Afzelius added: "Energy storage will play an increasingly important role across Sweden. RES has worldwide experience in battery storage projects and has delivered more than 500 MW to support a range of grid functions.
