Number of 5G base stations in Mexico by 2025

Overview

What is the first commercial 5G network in Mexico?

Together with Telcel, we're launching the first commercial 5G network in Mexico—the largest in Latin America so far—reaching 15 cities in the country with more than 1,500 radio base stations.

Does America Movil have 5G in Mexico?

Currently, the 5G network provided by America Movil exists in 18 Mexican cities and it is further aiming at creating the largest 5G commercial network in Latin America with the help of a \$1.8 billion investment. Currently, more than one million Mexicans are connected with the 5G network from the subsidiary Telcel.

How will 5G be deployed in Mexico?

The initial phase of the plan is to deploy 5G in Mexico using the 5G Non-standalone or NSA mode. This mode allows it to run 5G on the existing 4G LTE network infrastructure. The existing infrastructure will be extremely helpful in the fast deployment of the 5G network.

How many people will have 5G by 2025?

According to reports by the GSM Association, by 2025, there will be more than 1.7 billion subscribers of the 5G networks. The pop-up of the 5G network is especially high in North America and estimates say that 32% of North Americans will have a 5G network on their smartphones by 2023.

How many people are connected to 5G in Mexico?

Currently, more than one million Mexicans are connected with the 5G network from the subsidiary Telcel. In the initial phase of Telcel's 5G launch, 40 million people will be connected with the 5G network and the major hub of the connection will come from the people staying in Mexico City, Monterrey, and Guadalajara.

What is 5G Americas?

5G Americas provides global, North American and Latin American statistics relating to 5G and LTE networks. The information provided here is based on data provided from Omdia 's extensive database of network-related statistics. 5G Americas is an industry trade organization composed of leading telecommunications service providers and manufacturers.
