Outdoor Communication Power Site Energy BESS Platform

Overview

What is a Bess system?

At the heart of WEG's BESS solution is an advanced energy control and management solution. This sophisticated system coordinates different operation modes, optimizing the overall performance of the energy storage production.

What certifications does our outdoor energy storage system meet?

Our outdoor energy storage system meets rigorous international standards, including GB/T 36558, IEC 62933, UL1973, and UL9540A. These certifications ensure top-tier safety and performance, making it a trusted option for battery technology for industrial use and commercial energy needs. Do not hesitate and fill the request form.

What is C&I Bess?

Our C&I BESS Solution uses patented LFP lithium-ion technology, delivering dependable commercial lithium battery storage with pressure relief and fire protection features tailored for tough outdoor conditions.

Is C&I Bess a good battery storage provider?

Product Description As a trusted lithium energy storage provider, our Outdoor C&I BESS offers unmatched safety and reliability. Its LFP lithium-ion technology ensures high performance for commercial lithium battery storage, with advanced safety features like pressure relief and fire protection.

What is a Bess solution?

WEG's world class BESS solutions are capable of either co-location with variable renewable sources (PV or Wind) to reduce intermittency in supply, as well as stand-alone applications to address a host of reliability and stability issues on the grid.
