Outdoor power box design

Overview

What is a power distribution box?

Electric power is an essential element of every building and event, power distribution is the final delivery point of electricity. To make power safe and readily available for multiple users a rugged power distribution box is a good solution. Power Distribution Units (PDU) are often referred to as a Spider Box, Pagoda Box or a Circuit Box.

What is a rugged power distribution box?

To make power safe and readily available for multiple users a rugged power distribution box is a good solution. Power Distribution Units (PDU) are often referred to as a Spider Box, Pagoda Box or a Circuit Box. For the sake of this article we will refer to them as PDU's.

What is a spider box?

Industry jargon often refers to these as a "Spider Box". Its name comes from its spider-like connection of power cables, low heightened structure, and its mobility. It has been designed according to the North American needs of temporary power distribution systems, especially outdoor atmospheric conditions and safety measures.

What is a portable power distribution unit?

It has been designed according to the North American needs of temporary power distribution systems, especially outdoor atmospheric conditions and safety measures. Portable Power Distribution Units are sized based on current draw and will come with the appropriate circuit protection devices.

What is a PDU & a spider box?

PDU's are smart, portable, compact, and robust power distribution systems that are easy to carry and are energy-efficient. Industry jargon often refers to these as a "Spider Box". Its name comes from its spider-like connection of

power cables, low heightened structure, and its mobility.

How much does a spider box PDU cost?

A typical domestic-level Power Distribution Unit costs around \$600, whereas the cost of a commercial scale PDU can cost in upwards of \$2000. How to Choose a Suitable Spider Box PDU?

The best way of choosing a PDU is to assess your power demand and then also the generator or transformer specifications.
