Outdoor power charging tips e1

Overview

Does the E1 outdoor have a Ethernet cable?

@martinbarrett_533327547867360 The ethernet cable on the E1 Outdoor is for data only, faster connection to your router than wifi, it's not POE power over ethernet. The low voltage cable powers the camera. I wish Reolink made the E1 Outdoor POE. Copied!.

Is the reolink E1 outdoor a Poe Jack?

You will be disappointed because the E1 Outdoor specs are clear. Power is 12vDC, which is not the same as Power over Ethernet (PoE), which is more than 44V. The Ethernet jack is intended for initial setup (a common feature of Reolink cameras) and is not a PoE jack.

What does E1 mean?

E1: System High Pressure Protection. E1 TROUBLESHOOTING STEPS: Safety Note: Before any component is electrically disconnected in the unit, shut off main power. Inverter board DC bus voltage can take up to 15 min to discharge.

Can I use Ethernet port after installing E1 od?

In case of E1 OD you can use the ethernet port even after installation. The newer E1 OD version has POE port.
