

## Solar Storage Container Solutions

# Photovoltaic energy storage lithium battery in Manchester UK

**2MW / 5MWh**  
**Customizable**

## Overview

---

Could a £750m battery energy storage scheme be the world's largest?

Planning permission has been granted for a £750m battery energy storage scheme (BESS) near Manchester. Carlton Power, the independent energy-infrastructure developer behind the venture, said the 1GW facility at the Trafford Low Carbon Energy Park would be the world's largest battery-storage facility.

Why did Trafford Council get planning permission for a battery-storage facility?

Failed to load Related. Planning permission for the battery-storage facility was granted by Trafford Council. The council's leader, Tom Ross, said that the battery storage and green-hydrogen schemes would put Trafford and Greater Manchester "at the forefront of the UK's energy transition".

What is battery storage & how does it work?

Battery storage enables power from renewable sources to be stored and then used when needed. The National Grid says the technology has a "key part to play in ensuring homes and businesses can be powered by green energy".

## Photovoltaic energy storage lithium battery in Manchester UK

---
