

Solar Storage Container Solutions

Photovoltaic module companies exporting from Southern Europe

Overview

How many companies in Europe manufacture solar PV modules?

Today, at least 38 companies are active in Europe manufacturing the equipment and machinery that produces vital steps of the solar PV module supply chain, including cells, ingots, wafers, and polysilicon. EU Clean Industrial Deal: Opportunity for renewables and European manufacturing.

Who are the top European solar photovoltaic (PV) companies?

This report lists the top Europe Solar Photovoltaic (PV) companies based on the 2023 & 2024 market share reports. Mordor Intelligence expert advisors conducted extensive research and identified these brands to be the leaders in the Europe Solar Photovoltaic (PV) industry. Lightsource bp Renewable Energy Investments Limited.

What does the new EU report 'solar production equipment' mean for solar PV?

The new report „Solar Production Equipment – Key players in the EU’s industrial ecosystem for solar PV” explores the European capacity to manufacture the equipment and machinery that produces at each stage of the solar module manufacturing process.

Does Europe have a solar supply chain?

SolarPower Europe has released a report mapping Europe’s solar PV module production equipment capacity, identifying at least 38 companies involved in manufacturing key machinery for the solar supply chain, including cells, ingots, wafers, and polysilicon.

Where are solar PV modules manufactured?

Currently, at least 38 solar PV module production equipment manufacturers operate across nine European countries—Germany, France, Italy, the Netherlands, Switzerland, Spain, Hungary, Finland, and Norway. The majority, approximately 75%, specialize in manufacturing equipment for solar cells and

modules.

Does Europe's solar manufacturing sector favour downstream products?

Europe's solar manufacturing sector heavily favours downstream products such as cells and modules, according to SolarPower Europe.

Photovoltaic module companies exporting from Southern Europe

Exporting photovoltaic inverter companies to Europe

Jan 12, 2024 · Indian module exports to the US and Europe. In 2023, India is expected to export nearly US\$1 billion worth of PV modules to the US, a share of around 97% of the entire global ...

Photovoltaic energy storage companies exporting to Europe

Apr 9, 2023 · Europe's supply challenge: It's all imported. This ambition faces a potential supply resilience risk: Europe currently relies almost entirely on imports from one country for the solar ...

Top 10 Solar Developers in Europe

Jul 14, 2025 · The company operates across solar and wind technologies with a portfolio of 3.67 GW across 150 projects in countries including Ireland, the United Kingdom, South Africa, and ...

Solar Production Equipment

Mar 5, 2025 · In the solar sector, European companies originally played a key role in developing the production equipment needed for the mass production of solar wafers, cells, and modules. ...

5 Indian Solar Firms With Plans To 'Make In USA'

Sep 2, 2024 · The first phase of the investment consists of a \$250 million investment to develop an American solar photovoltaic (PV) module manufacturing facility in a recently completed ...

Solar photovoltaics in Europe

May 8, 2025 · The production volume of electricity from solar photovoltaic power in the European Union has been steadily increasing in the last years. In 2024, the EU's solar PV power ...

Exporting photovoltaic inverter companies to Europe

Jan 12, 2024 · About Exporting photovoltaic inverter companies to Europe As the photovoltaic (PV) industry continues to evolve, advancements in Exporting photovoltaic inverter companies ...

Indian solar PV exports to US to keep rising till ...

Oct 30, 2023 · New Delhi: India 's solar photovoltaic (PV) module exports to the United States of America (US) are likely to keep rising for another couple of ...

China's solar PV module exports hit 236 GW in 2024, with ...

Feb 4, 2025 · China's solar PV module exports hit 236 GW in 2024, with growth in all regions except Europe China exported 16.63 GW of modules in December 2024, up 9% MoM from ...

Top PV module companies by shipment volume in 2023

Jan 15, 2024 · In the dynamic world of solar energy, 2023 proved to be a noteworthy year for the top solar module manufacturers. The recently unveiled shipment rankings shed light on the ...

Sinovoltaics Releases 2025 Europe Solar Supply Chain Map ...

Lausanne, Switzerland -- May 23, 2025 -- Sinovoltaics, a Dutch-German Battery Energy Storage (BESS) and Solar Photovoltaic (PV) technical compliance and quality assurance service firm, ...

Top 5 Solar Panels Manufacturers in Europe

Jul 16, 2024 · EU-based solar panel manufacturers have reacted at the challenge and secured that Europe leads (once again) in clean energy technology. Here is a brief overview of the top ...

Chinese module exports up 5% MoM despite declines in the ...

Nov 29, 2024 · Europe imported 7 GW of Chinese modules in October, up 3% MoM from 6.8 GW and up 12% YoY from 6.23 GW. Europe accumulated 84.67 GW of module imports from ...
