---

What are the best solar companies in New York?

The Empire State consistently ranks among the top 10 states when it comes to solar power use. New Yorkers planning a switch to solar have a variety of installers to choose from. Our picks for the best solar companies in New York include SunPower, Momentum and Venture Solar, which offer high-efficiency systems and sleek panels.

Is New York a good place to install solar panels?

For instance, the New York Power Authority reports that since its inception, solar energy has grown by 3,000% in the state. With enough solar panels installed to power over 800,000 homes, New York has consistently ranked among the top 10 solar markets. New York also has a goal of reaching 5,000 megawatts (MW) of solar installations by 2026.

Does New York have solar power?

The state of New York may not be known for having a high level of sunshine, but the state has excellent solar incentives and high electricity pricing — both benefits when installing solar. The Empire State consistently ranks among the top 10 states when it comes to solar power use.

How much do solar panels cost in New York?

The average cost of installing solar panels in New York is \$2.77 per watt, which is close to the national average of \$2.85 per watt. A typical 8 kilowatt (kW) system in the state costs about \$22,160 before you apply incentives.

Who is venture solar?

With an office in New York City, Venture Solar is a local solar company with experience serving New York residents. Venture Solar is popular for installing high-quality, Tier 1 solar panels made in the U.S. Venture also offers highly-rated Enphase microinverters in its systems, leading to strong performance

and a long system life.

How many solar jobs will New York have by 2026?

New York also has a goal of reaching 5,000 megawatts (MW) of solar installations by 2026. A study by the New York State Energy Research and Development Authority shows that reaching this goal would lead to 2,300 new solar jobs, boosting the state's economy.
