

## Solar Storage Container Solutions

# Photovoltaic solar panels at Mogadishu factory

**LFP 12V100**

## Overview

---

Will a solar power plant reduce electricity costs in Mogadishu?

Beco, the company that provides the public electricity service in the city of Mogadishu, has recently installed a photovoltaic solar power plant there. The objective is to reduce electricity costs in the Somali capital. The company plans to increase the capacity of the solar power plant to 100 MWp in the coming years.

What is the capacity of Mogadishu solar power plant?

The Mogadishu solar photovoltaic power plant has a capacity of 8 MWp. The Beco company has the ambition to increase the plant's capacity to 100 MWp, with an investment of 40 million dollars. Pending the expansion of the solar power plant by 2022, the utility will continue to rely on its power generators to supply the Somali capital.

Will a solar power plant in Somalia be 100 MWp?

The company plans to increase the capacity of the solar power plant to 100 MWp in the coming years. A photovoltaic solar power plant is now operational in Mogadishu, the capital of Somalia. The plant was recently commissioned by Beco, Somalia's main electricity supplier.

How many people in Mogadishu have no electricity?

According to the World Bank's 2018 report, more than 64% of the population has no access to electricity. Beco, the company that provides the public electricity service in the city of Mogadishu, has recently installed a photovoltaic solar power plant there.

Will BECO expand its solar power plant in Somalia?

The Beco company has the ambition to increase the plant's capacity to 100 MWp, with an investment of 40 million dollars. Pending the expansion of the solar power plant by 2022, the utility will continue to rely on its power

generators to supply the Somali capital. The need to invest in battery storage.

Does Somalia have a national electricity grid?

The solar plant also increases the installed capacity of the capital Mogadishu. Beco's facilities provide a total of 35 MW, compared to an estimated demand of 200 MW. Somalia does not have a national electricity grid. It collapsed along with the government at the start of the civil war in 1991.
