Port Moresby Communication Base Station Wind Power Construction Bidding Network

Overview

What is the Port Moresby energy project?

The project will upgrade and extend the transmission and distribution grid, improve substation capacity, as well as upgrade and rehabilitate two hydropower plants. It is aimed at reducing fossil fuel consumption, increasing access to energy supply and improving network reliability in the Port Moresby power grid.

What is the Port Moresby power grid development project (ppgdp)?

It is aimed at reducing fossil fuel consumption, increasing access to energy supply and improving network reliability in the Port Moresby power grid. The Port Moresby Power Grid Development Project (PPGDP) is funded by ADB loan L2998/29991.

How will the Port Moresby power grid be impacted?

Load forecasts for the Port Moresby power grid have increased significantly in recent years and demand is expected to rise significantly in coming years, fuelled by high economic growth associated with the proposed LNG Plant as well as continued growth in the mining sector and associated industry.
