Product Model

HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions

1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity

215KWH/115KWH

Battery Cooling Method

Air Cooled/Liquid Cooled

Overview

What is a battery powered mobile Workcenter?

These battery powered mobile workcenters are great for warehouses and retail. CPU carts can be configured to hold computers, monitors, keyboards, printers, bar code scanners and more.

What is a mobile powered workstation (MPW)?

This heavy-duty cart has a 500 lb. capacity, ample shelf space for inventory and tools, and rechargeable power with the ability to run several devices at once for 8-12+ hours of normal use. Thanks to wireless technology, mobile powered workstations (MPWs) are opening up new frontiers of efficiency and productivity.

Why should you convert a stationary workplace into a mobile workstation?

Converting a stationary workplace into a mobile one is the easiest, most economical way to increase productivity of your current workers and infrastructure. Our selection of mobile workstation carts and power systems let you take your workstations wherever they are needed.

Why should you buy a mobile workstation?

"Mobile power is one of the best ways to reduce no-value activities like walking. These workstations are ideal for receiving, inventory and order picking. Choose a model with swappable batteries for back-to-back shifts or 24-hour operation.

How much power does an ergonomic cart provide?

This electric height-adjustable ergonomic station provides 8+ hours of power for a variety of devices in industries where worker comfort matters as much as improved efficiency. This economical cart solution offers an excellent price to performance ratio. Ideal for powering a laptop, barcode printer & scanner for up to 8 hours.

What is a mobile workstation used for?

Common applications include: Warehouses & Distribution: Maximize supply chain efficiency is an ongoing goal of progressive organizations. Mobile workstations deployed in a wireless facility can help support ERP and WMS systems to achieve optimal productivity.
