# Power breaker switch factory in Atlanta

## Overview

---

Where are high voltage disconnect switches made?

Just a short 45 minutes south of the world's busiest airport, Atlanta's Hartsfield-Jackson International Airport, down US Highways 19/41 you will find Hampton, Georgia, home of Southern States: the largest switch manufacturer of high voltage disconnect switches in the world.

Where is switchgear made?

Some of the top producers of switchgear in the world, specializing in cutting-edge technology to satisfy the growing need for high-performance, safe, and dependable electrical systems, are based in the United States.

Who is switchgear US LLC?

Switchgear US LLC Switchgear US LLC is a Women Owned Business (WBE) with WBENC Certification that provides electrical power distribution devices to both the public and private sectors.

What's new in the power switching division?

Our Power Switching Division's recent additions include the McGarity Building, a 15,000 square foot climate controlled facility designed for manufacturing, as well as the Spencer Complex, home to the division's sales, engineering, and assembly team.

Where are SF6 switches made?

Our Main Office and headquarters, Mitchell Building, is only one of our four locations dedicated to the design and manufacturing of high voltage disconnect switches and SF6 products. As a result of rapid growth throughout the past two decades, Southern States has expanded our operations to include three additional facilities.
