Power generation from photovoltaic panels in Mombasa Kenya

Overview

Could a solar photovoltaic plant be installed at Mombasa port?

A feasibility study conducted by energy and marine consultancy ABL Group has picked two possible brownfield sites for the installation of a solar photovoltaic plant to generate renewable energy-powered shore power or 'cold ironing' at the Mombasa port.

Will Mombasa port meet emissions reduction targets?

One of the key action plans that the policy prioritised was an investment in cold ironing systems. This would enable Mombasa port to match the emissions reduction targets of world-class ports. Read: Transport CS Murkomen ousts KPA board chair, picks former MP.

What is the Mombasa Port Green policy?

The drafting of the Mombasa Port Green Policy was commissioned in 2014, led by The Cornell Group Inc. USA and funded by Trade Mark East Africa. One of the key action plans that the policy prioritised was an investment in cold ironing systems. This would enable Mombasa port to match the emissions reduction targets of world-class ports.
