# Qatar Solar Tiles

## Overview

---

Is Qatar a good place to develop solar energy?

Qatar boasts the ideal conditions for developing solar energy with its exceptional sunshine and vast unoccupied spaces. This is where the Al Kharsaah solar power plant, developed by TotalEnergies and its partners QatarEnergy and Marubeni, was inaugurated in October 2022.

Who makes solar energy in Qatar?

The state-owned group, Qatar Solar Energy, is a leading manufacturer of solar power components and last year opened the largest integrated production facility for solar energy systems in the Middle East and North Africa region. Even more recently, Qatar's Solar Technologies, took a 49% stake in German-based SolarWorld.

What is Al Kharsaah solar?

of Qatar's peak electricity demand covered by Al Kharsaah. Located 80 km west of Qatar's capital, Doha, the Al Kharsaah Solar PV Independent Power Producer (IPP) project is the country's first large-scale solar power plant and is set to significantly reduce its environmental footprint.

Why did Qatar invest in solar power?

This move unequivocally underscores the scale of Qatar's economic transformation and its uncompromising environmental commitment, with the strategic investments now bringing the country's total solar output to 1,675 megawatts, covering nearly 15% of peak electricity demand and preventing around 4.7mn tonnes of carbon emissions annually.

What are Qatar's energy goals?

Qatar had set targets under the Second National Development Strategy (2018-2022) and the National Environment and Climate Change Strategy (2021-2030), including producing 20% of electricity from renewable sources

by 2030, slashing greenhouse gas emissions by 25%, and investing in solar energy storage research and grid integration projects.

How big is Al Kharsaah solar power plant?

The Al Kharsaah solar power plant covers 1,000 hectares (the equivalent of approximately 1,400 soccer fields) and features two million bifacial solar modules mounted on trackers for achieving substantial power gains.
