Where can I buy a static & dynamic ups?

As the exclusive ACTIVE POWER dealer and official ABB reseller in France, Eneria can offer a unique catalogue of static UPS (Uninterruptible Power Supply) and dynamic UPS . Fluctuations and failures of the power supply, from simple voltage dips to total power cuts, can have disastrous consequences on the products or services of your activity.

What is a power ups & how does it work?

A ups is a device used to generate current. It replaces a faulty or missing power supply. It is a safe, uninterrupted backup power solution that provides electrical protection for networks, data centers, critical systems and industrial manufacturing processes.

What types of UPS does eneria offer?

Eneria offers a range of single-phase UPS, stretching from a unit power of 0.35 kVA to 10 kVA, or a range of three-phase UPS, with a unit power of 10 kVA to 1,500 kVA. From the project design phase, to the start-up of your installation, we offer a complete range of made-to-measure services:.

Why should you choose ENAG's ups?

Our UPS provide a protected AC network with a configurable autonomy for use in case of black out. Reliable and simple to use, this power supply is for use in professional applications with technical constraints and difficult environmental conditions. ENAG proposes a large range of options to allow you to adapt your

UPS to your requirements.

How does an eneria ups work?

The energy is stored by a flywheel, without any batteries or air conditioning. Eneria offers a range of single-phase UPS, stretching from a unit power of 0.35 kVA to 10 kVA, or a range of three-phase UPS, with a unit power of 10 kVA to 1,500 kVA.
