

## Solar Storage Container Solutions

# Saint Lucia 300W solar street light manufacturer

## Overview

---

How many lumens does a solar Streetlight have?

Solar Lighting International offers solar streetlights in multiple brightness options: 6,600 lumens, 7,400 lumens, 13,300 lumens, 14,800 lumens, 16,000 lumens, and 22,200 lumens for standard streetlight fixtures.

How long do solar LED street lights last?

Solar LED streetlights with a 20-year service life design. Selecting the right solar street light manufacturer to partner with can be daunting. Your reputation is important to us at Solar Lighting International and we manufacture the highest quality, best solar street lights available.

What kind of battery does solar lighting international use?

Depending on your needs and region, Solar Lighting International has a wide range of battery options. Our standard battery is a long-life LiFePo4 battery technology for reliability and minimum maintenance. According to the climate, standard gel or AGM batteries should be replaced every 3-5 years.

Are solar street lights eco-friendly?

Commercial-grade solar street lights have become increasingly popular, notably in the recent decade. They are now commonly considered the most environmentally friendly alternative to utility grid lights. They are the ideal replacement for all applications since they are cost-effective, sustainable, and low-maintenance renewable energy sources.

Do commercial solar street lights rely on the utility grid?

Our commercial solar street lights do not rely on the utility grid, allowing them to be installed on rural roads and streets without running power to the light pole.

How many lumens can a SLI light have?

SLI can even double the lights on the pole for up to 44,4000 lumens for environments where super bright and wide roadway coverage is required.
