Overview

Does outdoor solar lighting work?

According to the U.S. Department of Energy, outdoor solar lighting works quite well in most areas of the U.S., as it doesn't require an excessive amount of sunlight to charge up and work. This means that even on cloudy days or during winter, you'll still be able to light your way.

What are outdoor solar lights?

For maximum performance and flexibility, landscape solar lights often have a lamp head and solar panel that you can separately adjust for maximum solar gains and the best angle of illumination. For most people, this is the idea of "outdoor solar lights." Plant them among your hostas or hydrangeas, or use them to cast a soft glow on your walkways.

Are outdoor solar lights right for your yard?

One of the major benefits of outdoor solar lights is that they're very easy to install. Just stick them in the ground or screw them in place and they're ready to go. First things first: to decide which type of outdoor solar lights are right for your yard, think about what you want the lights to do and then choose accordingly.
