# Solar power system prices in the Philippines

## Overview

---

How much do solar panels cost in the Philippines?

Solar panel prices in the Philippines vary based on property type and other factors. For commercial properties, prices typically range from ₱20,000 to ₱30,000 per kilowatt, while residential installations usually cost between ₱30,000 and ₱50,000 per kilowatt. The cost of individual panels depends on their wattage, efficiency, and brand.

Where to buy cheap solar panels in the Philippines?

The cheapest offers of solar panels in the Philippines can usually be found in online stores or solar equipment distributors. There we can find opportunities for panels from lesser-known brands at promotional prices. However, when buying a very cheap panel, you should be careful about unfair offers and contraband.

How long do solar panels last in the Philippines?

Most solar panels have a lifespan of 20 to 30 years, with warranties often covering 25 years. What is the average cost of a solar panel installation in the Philippines?

The average cost varies, but installations generally range from PHP 160,000 to PHP 900,000, depending on system size and type.

Why is solar energy becoming popular in the Philippines?

Solar energy is becoming popular in the Philippines due to its abundant sunlight and the high cost of traditional electricity. With the government's support through incentives and the decreasing cost of solar technology, solar power is an increasingly accessible option for many Filipinos.

Are solar panels a good investment in the Philippines?

Absolutely. With the right system, our clients experience 30% to 70% savings

on their electricity bills — some even reach a zero bill. Payback period for a solar system in the Philippines is typically between 3 to 5 years. After that, the savings go straight to your pocket.

Who makes the best solar panels in the Philippines?

The best PV manufacturers include: LG, Panasonic, Canadian Solar, Jinko, Longi. The Philippines photovoltaic market is dominated by Asian producers of PV panels, whose panels are usually cheaper than their European counterparts. The most popular brands include Longi, Jinko, Trina Solar and Risen.
