Based on its recent reviews, available equipment options and production guarantee, OC Solar is the best solar company in Los Angeles. Budget-conscious homeowners may appreciate Sunrun for its zero-down leasing option, and Sunlux stands out for its consistently helpful customer service. Need help making a decision?

.

Is Los Angeles a solar star?

According to Environment America Research and Policy Center, not only is Los Angeles a solar star — defined as a location that produced at least 50 watts of solar energy per person in 2019 — the City of Angels actually tops the list.

Can solar panels save you money in Los Angeles?

Getting the right solar panel installation company for your home is an important decision, but it's one that can save you a lot of money in Los Angeles. Because solar panels generate their own energy, they can vastly bring down your electricity bill each month, if not completely eliminate it.

Is solar a good investment in Los Angeles?

The market for solar has increased exponentially in recent years, and,

according to NC Clean Energy Technology Center, the city has one of the highest returns on investment for these systems. In fact, people with solar can save about \$100 per month on their utility costs. This guide explores the use of solar electricity in Los Angeles.

Does Los Angeles have high photovoltaic potential?

With 186 days of sunlight in Los Angeles, it's not surprising that the city has high photovoltaic potential. In fact, according to the UCLA Luskin Center for Innovation, there are 1,481,814 sites in Los Angeles County — including residential, commercial, and industrial properties — that could accommodate solar systems.
