

## Solar Storage Container Solutions

# Solar roof tile manufacturers

## Overview

---

What are solar roof tiles?

Put simply, solar roof tiles are solar panels that look like roof tiles. They convert energy from the sun into usable electricity with the help of photovoltaic cells. Much like solar panels, they comprise semi-conducting materials that generate an electric charge and send it to an inverter and eventually a home and/or solar battery.

What are modern solar tiles?

Modern solar tiles come in various designs to match different architectural styles. They can mimic classic Tuscan tiles, concrete, or other traditional roof materials. Unlike tiles, traditional solar panels are mounted on top of the roof, making them harder to visually integrate.
