How can I contact Southern Solar Systems?

To contact Southern Solar Systems, you can fill out a product request form online, call us at 256-883-9848, or email us at [email protected]. Southern

Solar Systems is a design, supply and install contractor for residential and commercial properties, founded in 2007.

How do solar PV systems work?

Solar PV Systems work by utilizing large panels made up of many solar cells connected together. These panels generate electricity when exposed to sunlight. Many states have utilities that allow these systems to feed energy back into the grid during times when the PV System is producing more energy than is being used by the property.
