## Overview

---

Is a custom battery pack better than a lithium-ion battery pack?

In some instances, a custom NiMH battery pack or custom alkaline battery pack may perform better than a lithium-ion battery pack, while keeping your costs lower. When involving our team of engineers early on in the design process, we can help assist you in choosing the proper custom battery solutions for your needs.

Who is Alexander battery technologies?

Designing, developing and manufacturing customised lithium-ion battery packs using a full range of battery chemistries, Alexander Battery Technologies delivers incredibly reliable custom battery packs for businesses across the industries we serve.

What types of batteries do we manufacture?

Our team has extensive experience with lithium-ion, lithium polymer, nickel metal hydride, nickel cadmium, lithium primary, and alkaline battery packs and assemblies. On all projects, we work closely with customers from the first design concept through prototyping and testing to large-scale manufacturing from our facilities in the U.S. and China.

Where are Alexander battery products made?

Alexander Battery Technologies' is a UK battery pack manufacturer, based in North East England.
