# Tokyo Energy Storage Base Project Investment

## Overview

---

Does Japan have a dedicated Energy Storage fund?

The nascent grid-scale energy storage market in Japan now has its first-ever dedicated investment fund, to be jointly managed by Gore Street.

What is the GI Energy Storage fund?

The Fund is managed by GI Energy Storage Management, which was jointly established with Gore Street Capital (GSC), and is Japan's first dedicated fund that handles everything from investment and development to operation in new energy storage plants (including those with renewable energy facilities) in the Kanto area and elsewhere.

What is Japan's first fund dedicated to grid storage batteries?

Japan's first fund dedicated to grid storage batteries begins full-scale operation Raised over 8 billion yen from 11 public and private investors Norbert Gehrke Oct 02, 2024 Share this post Japan Startup Observer Japan's first fund dedicated to grid storage batteries begins full-scale operation Copy link Facebook Email Notes More Share.

How will a new 'green financing model' work in Japan?

Investments will be focused on projects in the Kanto region, which comprises the Tokyo Metropolitan area and six surrounding prefectures. Much of the new investment fund's remit is around establishing a new "green financing model" for investments in utility-scale battery energy storage system (BESS) assets in Japan, Gore Street said.

Does Japan need energy storage?

Japan, like Britain, is an island country with relatively little interconnection to neighbouring states. That means it needs to balance and manage volatility within its own grid networks, and energy storage is a key technology to enable that, especially as rising shares of renewable energy will increase that

volatility.

When will Itochu launch its first energy storage station?

Going forward, the plan is to launch the first energy storage station around fiscal 2025, and then proceed with the development and operation of energy storage stations one after another. ITOCHU has developed a product lineup that meets market needs, from home storage batteries to large-scale energy storage systems for industrial and grid use.
