Uninterruptible Power Supply for Addis Ababa Hospital

Overview

Why do hospitals have uninterruptible power supplies?

Many hospitals have uninterruptible power supplies dedicated to specific testing bays to ensure a smooth and constant supply of utility power. Navigate outages safely and effectively during emergency situations.

What are uninterruptible power systems (UPS)?

Always, also, without prejudice to the technical teams or the patients. Uninterruptible Power Systems (UPS) are a device thanks to which the power supply can be maintained even when abnormal situations occur.

What is ups for medical centers & hospitals?

UPS for medical centers and hospitals deliver backup power in emergencies and ensure power conditioning for critical equipment. [Learn more.](#)

Do health centers have uninterrupted power systems?

In short, from ETKHO we recommend without any doubt that every health center or hospital has uninterrupted power systems that guarantee its work in any of its areas, especially in critical hospital areas, and in any type of circumstance, even in the most critical. Always, also, without prejudice to the technical teams or the patients.

Does etkho have emergency power supply systems?

At ETKHO we have emergency power supply systems that, in the event of failure of the main power system, begin to work automatically in less than 0.5 seconds, thus avoiding any collateral damage, especially for the safety of patients in hospital centers. What are UPSs for?

Critical and complex situations are experienced daily in hospitals.

Are hospital staff prepared for a power outage?

Critical and complex situations are experienced daily in hospitals. The faculty and staff in general are prepared for this type of moment. However, none of them would like to be present in a hospital or health clinic when a power outage occurs.
