Usb c power station for sale in Spain

Overview

What type of plug does Spain use?

For Spain, there is one associated plug type: types F. Spain operates on a 230V supply voltage and 50Hz. In Spain the power sockets used are of type F. Use the photo below to help identify the right plug and socket. Plug adapters are the interfaces between the American flat-pronged plug and Spain's two round-prong socket.

How many Watts Does a USB-C port charge?

USB C port charges up to 20W, and each USB A port charges up to 18W, all 3 ports share output 15W totally. The USB-C port supports Quick Charger 3.0. The US to European plug adapter is not a voltage converter.

Do I need a voltage converter in Spain?

If the standard voltage in your country is in the range of 100-120 volts, you need a voltage converter in Spain. (In the US, electricity comes out of the wall socket at 110 volts, alternating at 60 cycles per second.) If the frequency in Spain (50 Hz) differs from the one in your country, it is not advised to use your appliances.

Can I use my electric appliances in Spain?

Amazon has an great selection of adapters. We don't sell directly, just want to make sure you have the right one for your travels! You can use your electric appliances in Spain, if the standard voltage in your country is in between 220 - 240 volts. Manufacturers take these small deviations into account.
