

## Solar Storage Container Solutions

# Villa solar energy storage system

### Power Conversion System

- Single-stage three-level modularization
- Multi-branch input to reduce battery series and parallels connection

## Overview

How does a villagrid Solar System work?

Your PV (Photovoltaic solar system) collects energy from the sun and stores it in your VillaGrid Storage System. Your system connects to a Inverter which converts the DC energy stored in your VillaGrid battery storage system and converts it to usable AC energy that your home appliances can use.

How does a villagrid battery storage system work?

Your system connects to a Inverter which converts the DC energy stored in your VillaGrid battery storage system and converts it to usable AC energy that your home appliances can use. The VillaGrid allows you to avoid peak hour charges, reduces your dependence on the energy grid and keeps you running in the event of an outage.

What is villgrid energy storage?

Take a quick tour of the Villgrid energy storage system. Understand the features and benefits it can have onto your monthly electric bill. 10 kilowatts continuous power. Double the power of legacy lithium ion batteries. Lithium Titanate is the safest battery chemistry on the market, with the industry's first non-flammable, carbon-free anode.

Why should you choose a villagrid battery?

Lower your energy costs and reduce your dependence on the power grid with the award-winning energy storage system that provides more power, more safety, and the industry's longest warranty. VillaGrid is the longest lasting home battery with the highest power while also being the safest and most efficient battery on the market.

Why do I need a solar energy storage system?

The VillaGrid allows you to take control of your home energy management and electric usage rather than being relying solely on the grid. Including a

Solar Energy Storage System in your home you are assisting us in helping to safe guard our planet.

Is the villagrid battery a reassurance?

The VillaGrid is battery is ready to be a reassurance for homeowners who are impacted by evolving climate. Working hard to provide our customers with reassurance about the comfort of their home. Decide how and when to use the energy they have stored, such as during power outages, or to save money during peak rate hours.
