# Wattage of Garden Solar Light

## Overview

---

How many Watts Does a landscape light use?

An individual light uses 5W to 10W and a backyard system will use 6 to 10 of these lights. The exact number depends on the size of your system and model of your landscape lights. For example, a set of six 5W lights uses 30W while a set of ten bright 10W lights uses 100W. The reason for this difference is quite simple.

How many lumens is a solar garden light?

Solar powered -- powered by solar, are charged in full and direct sunlight for 6-8 hours, the lights automatically turn the lights on at dusk and off at dawn. There is a tab on the light cover, please remove it before charging. Light brightness is 8 lumens, which is 5 X brighter than general solar garden lights. Measures: 4.2 x 4.2 x 15.83 inches.

What is a garden solar light?

A garden solar light is 100% brand new and high quality. It automatically lights up in the dark, no external power required. It is perfect for enhancing your backyard and pathway. This solar light boasts an IP65 waterproof rating and the stems and leaves are supported by wire, ensuring ultra-flexibility and durability.

Are solar garden lights a good choice?

Solar garden lights are becoming a mainstream for garden and landscape lights as they are aesthetically pleasing and can give a lot of savings, with less maintenance and easy installation. Smaller lights for your garden can range from 100 to 300 lumens, while larger garden lights can range from 600 to 1,800 lumens.

How much electricity does landscape lighting use?

Happily, electricity bills are recorded in kilowatt-hours (kWh). A kilowatt is

simply 1000 watts. So a 60W landscape lighting running for 1 hour uses 0.6kWh. In reality, you use landscape lights for 4 hours an evening. This means a medium sized lighting system uses about 240Wh or 0.24kWh electricity a day.

What size batteries do solar garden lights use?

This is an important figure to match as the weak charger in Solar Lights struggles to charge higher capacity batteries. We stock most sizes of Solar Garden Lights - 1.2V rechargeable batteries in AA, AAA, 2/3AA, 2/3AAA and 1/3AAA - we have a range of batteries that are direct replacements for the original batteries.
