Where can I buy outdoor power supplies in Iran

Overview

What type of plug does Iran use?

Iran uses power outlets and plugs of types C & F. Take a look at the pictures below to see what these plugs and power sockets look like: Do the outlets look different in your country?

You'll need a power plug adapter. Type C - The standard European plug. Commonly used in Europe, South-America and Asia, but also in quite a few other countries.

What types of power sockets are there in Iran?

Think of these as the gates to charge up all your trusty gadgets and gizmos. In Iran, these power sockets mainly fall into two categories: Type C and Type F. Type C Sockets: These are the friendly two-pin sockets you'll often come across in Iran. They're a bit like the basic building blocks of power sockets - simple and straightforward.

Do Iran power plugs work?

Iran power plugs often leave travelers puzzled due to the two-pronged design. Make sure your devices have the right plugs or adapters to fit into Iran socket types. Invest in a good quality universal adapter before you embark on your journey. Universal adapters are versatile and work in most countries, including Iran.

Where can I find a power adapter in Iran?

You can easily find adapters in local electronics shops or markets in Iran. However, it's always better to be prepared and bring one with you. Iran's power supply can sometimes be unpredictable, with occasional power surges. To protect your valuable electronic devices, consider packing a voltage stabilizer or surge protector.

What is Iran electricity voltage?

Understanding Iran electricity voltage is as important as packing your favorite travel essentials. Here's the deal: Iran electricity voltage is 230V and the frequency is 50Hz for their power supply. But why should you care about these numbers?

Well, it's all about making sure your gadgets play nice with their sockets.

Do universal adapters work in Iran?

Universal adapters are versatile and work in most countries, including Iran. They are compact, easy to carry, and a lifesaver when you encounter different socket types during your travels. If you happen to forget your adapter, don't worry. You can easily find adapters in local electronics shops or markets in Iran.
