Xiaomi outdoor power bank with solar panel

Overview

Do Xiaomi power banks work?

What I've loved about Xiaomi power banks is that they support passthrough charging, which means that you can plug it in, plug your devices into it and it will charge those up before charging itself. That means that you can plug it in overnight, plug in your phone and both should (hopefully) be charged in the morning - all from one charger.

What kind of battery does the Mijia outdoor power supply 1000 Pro use?

The Mijia Outdoor Power Supply 1000 Pro uses alithium battery with mixed solid-liquid electrolyte. This battery has passed the acupuncture test and meets the IP67 protection level, thus quite resistant to shock, dust and water. In addition, the battery can be recharged up to 1000 times without any problems.

How long does Mijia outdoor power supply 1000 Pro take to charge?

In terms of charging capacity, the Mijia Outdoor Power Supply 1000 Pro is equipped with a two-way inverter flash charging technology, which can replenish 80% of the power in 50 minutes and 100% in just 1,5 hours.
