

Solar Storage Container Solutions

Zambia s first inverter manufacturer

Overview

Why should you invest in a photovoltaic system in Zambia?

Zambia provides optimal conditions for photovoltaic (PV) with average irradiation rates of 5.5 kWh/m². To harvest that huge source of energy we provide a wide range of photovoltaic solutions for the residential, business and social sector. In general, PV systems can be divided into on-grid and off-grid systems.

Why should you choose a solar pump system in Zambia?

Zambia has one of the biggest water resources in Sub-Saharan Africa and our solar pump systems will enable you to access those resources at any place. Either for residential use, irrigation of farm land or industrial applications, solar pumps will ensure an independent water supply at your location.

Can a solar inverter be used for electronic devices?

The AC power can then be used by any electronic device. Our PV solutions combine the solar array and the inverter with a battery bank and/ or a diesel generator. Batteries enable the systems to store solar power and utilize it even at night time.

What is the purpose of a solar inverter?

The purpose of an inverter is to convert the direct current (DC) which is generated by the solar panels into alternating current (AC). The AC power can then be used by any electronic device. Our PV solutions combine the solar array and the inverter with a battery bank and/ or a diesel generator.

Why do you need a split unit system in Zambia?

Split-unit systems are ideal solutions for the tourism and social sector as well as bigger apartment buildings. Load shedding is a constant problem in Zambia which can cause devastating revenue losses. Our backup systems will help you to be prepared in case of power outages.

Do solar pumps need an inverter?

Solar pumps do not need an inverter as they can operate by direct current (DC). Our service includes panel stands which we produce according to your requirements. That will make sure that the system works safely and is protected against thievery. Our services include the supply of a wide range of energy efficient Light-emitting diodes (LEDs).
