# Zhengzhi lithium battery smart inverter

## Overview

---

What is ZTE smartli battery?

It is developed with integrated structure, small volume, better charging&discharging performance and smart features. ZTE SmartLi battery can be connected with existing lead-acid battery or different type of lithium-ion battery directly without any combiner, helping customers to reduce investment in site expansion.

What is ZTE smartli voltage boosting technology?

ZTE SmartLi voltage boosting technology supports constant voltage output when discharging without an additional voltage booster. By automatically adjusting the output current,ZTE SmartLi batteries can cancel the effects of bias current,and output full power.

What is ZTE smartli?

ZTE SmartLi is specially designed for smooth battery capacity expansion and 5G network deployment. It is developed with integrated structure, small volume, better charging&discharging performance and smart features.

Who is Steven Zheng?

Steven Zheng, President of Utility Smart ESS Business, Huawei Digital Power, launched the world's first Cell-to-Grid Smart String & Grid-Forming ESS Platform. Since 2013, Huawei has chosen string inverter technology.

Does Huawei use string inverter technology?

Since 2013, Huawei has chosen string inverter technology. In 2020, Huawei launched the industry's first string ESS, which uses controllable power electronics technologies to resolve the inconsistency and uncertainty of lithium batteries.
