Gaborone Solar Power System

Overview

What is the 80 MW Gaborone solar project?

The “80 MW Gaborone solar project” was a 5 year implementation project comprising the implementation of 7 solar PV projects and the construction of a local PV panel assembly factory. The services rendered for the “80 MW Gaborone solar project” here: .

Where will a solar power plant be located in Gaborone?

The plant will be located near Mmadinare, close to the former mining town of Selebi-Phikwe, 400 kilometres north-east of the capital Gaborone. The solar power plant will ensure that approximately 48,000 tons of CO2 emissions will be avoided and power approximately 20,000 households annually.

Where is the largest solar project in Botswana?

“As we reach another milestone in our renewable energy journey in Botswana, we are now looking forward to starting construction of the largest solar project in the country,” said Scatec CEO Terje Pilskog. The plant will be located near Mmadinare, close to the former mining town of Selebi-Phikwe, 400 kilometres north-east of the capital Gaborone.

Will a solar project help Botswana meet its electricity demand?

Botswana has launched its first utility scale grid-connected solar project which is expected to help the country meet its electricity demand. Botswana President Dr Mokgweetsi Masisi at the launch of the first phase of the solar project. Image Source: Botswana Power Corporation (BPC)/X.

When will Mmadinare 100MW solar project be delivered in Botswana?

Image Source: Botswana Power Corporation (BPC)/X. Botswana has launched the first phase of a solar project expected to be delivered by next year. Last week, Botswana President Dr Mokgweetsi Masisi, launched the construction work of Phase 1 of the Mmadinare 100MW Solar Cluster.

How will a solar power plant benefit Botswana?

The solar power plant will ensure that approximately 48,000 tons of CO2 emissions will be avoided and power approximately 20,000 households annually. Botswana has launched its first utility scale grid connected solar project which is expected to help meet the country's electricity demand.
