Kyiv New Energy Crossing Site

Overview

How can Russia improve Ukraine's energy security?

By providing alternative and cleaner supplies, this will strengthen energy security in the EU and in Ukraine, while supporting development and investments in the renewable gas sector in Ukraine. For three years, Russia has sought to plunge Ukraine into darkness by relentlessly targeting the energy infrastructure.

How will the EU & Ukraine cooperate on renewable gas?

Today in Kyiv, the Commission and Ukraine also agreed on a roadmap to step up cooperation on renewable gases. By providing alternative and cleaner supplies, this will strengthen energy security in the EU and in Ukraine, while supporting development and investments in the renewable gas sector in Ukraine.

How will a new energy package affect Ukraine?

It will also boost the security of supply in Ukraine and the wider region, as the Commission will assist with the necessary purchases of gas. Crucially, with a massive acceleration of domestic renewable power production, this package will increase the overall resilience of the Ukrainian energy system.

What is the energy security and integration package for Ukraine?

An energy security and integration package for Ukraine The package offered in Kyiv today consists of: The package will facilitate electricity market integration with the EU by spring 2027, together with Moldova, as well as further integration in the EU gas sector.

How will the Commission support gas purchases in Ukraine?

The Commission will assist in funding gas purchases, especially through the Ukraine Facility together with its implementing partners. This will result in ample gas reserves to ensure security of supply, benefiting both Ukraine and

the wider region.

Why did the European Commission offer a new support package to Ukraine?

Dan Jørgensen, Commissioner for Energy and Housing In Kyiv today, the European Commission has offered a new support package to Ukraine to secure its energy system and enable its full integration within the European energy market.
